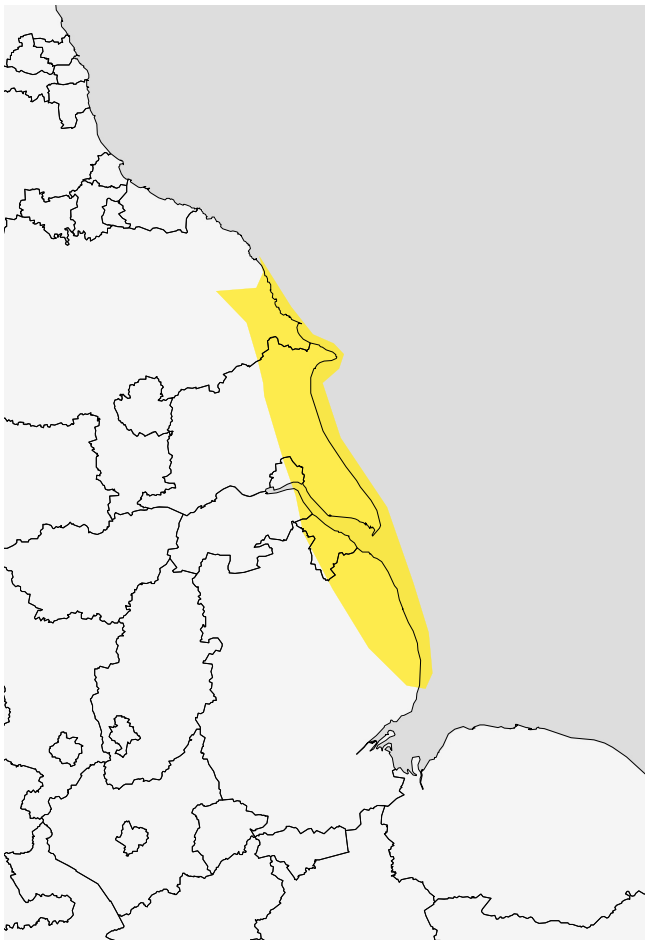
Yellow warning
Ice

Between
15:00 Tue 13 Dec 2022 and
12:00 Wed 14 Dec 2022



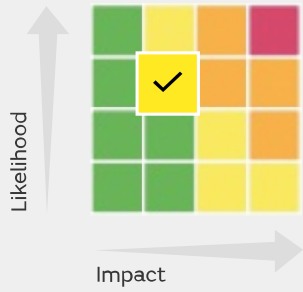
A few sleet and snow showers along the coastal strip of eastern England will bring a risk of some slippery surfaces.

What to expect

- Some injuries from slips and falls on icy surfaces
- Probably some icy patches on some untreated roads, pavements and cycle paths

Further details

Although most locations in eastern England will remain dry, a few mostly light sleet and snow showers will push inland from the North Sea overnight Tuesday into Wednesday morning. These showers will fall on roads and pavements that are below freezing, likely leading to some slippery surfaces due to ice or a light dusting of snow.



✓ Medium likelihood of low impacts

Issued at 10:31 Tue 13 Dec, 2022
